

**Jill Green, PEng.**  
CEO  
Green Imaging Technologies, Inc.

Jill Green graduated from UNB with a Bachelor of Science in Civil Engineering in 1995. She has had a wide variety of professional experience over the last 15 years working in both the public and private sectors managing multi-million dollar projects for major public and private corporations. Through her career, Jill has had many opportunities in different areas including managing a Public Utility responsible for 23 communities, was a partner in a mid-sized engineering firm and owned her own consulting business. Much of Jill's experience was gained in the USA but in 2006, she returned to Atlantic Canada to start GIT and commercialize technologies developed at the UNB MRI Research Centre.

In addition to Jill's responsibility as CEO, she is also the Chair of the Fredericton Area Pollution Control Commission, the Marketing Director for the Society of Core Analysts, the Secretary for the Maritimes Section of the Society of Petroleum Engineers, and serves on the Board of Directors of a modified wood corporation.
